

Puzzle *Training* Academy Brochure.

Dedicated training for contact centre professionals

"I like that it was interactive, we built call flows as we went through the training. Really engaging."

"As training goes this was the one of the best, exactly what we were looking for."

"What an amazing training session! I have learnt so much and I feel like I can now use the software with confidence."

"My team's praise was glowing. They said the training was delivered in the perfect style with lots of relatable contextual examples to give the activities substance."

"The scenario build at the end of the course was fun and challenging. Discussing our challenges and questions along the way helped with understanding the material."

"Very enjoyable and relaxed. Easy to understand - a great learning experience."

friendly professional activities
contextual

"The support material you've provided is great and will become our bible!"

"I really felt that I was seen and heard in the session, and it made me really comfortable. Thank you for that!"

"It was a good review with a focus on the right things. It is good that you have a lot of time during the training."

"Great training session, great trainer, happy with the introduction to the new platform."

"I liked the way the trainer demonstrated the different possibilities in the program and demonstrated it into something relevant for our company."

"The way the trainer explained and made sure it fitted the needs of the entire group- excellent!"

Staff training on a new product can sometimes be *challenging* for an organisation.

At Puzzel, we work with our clients to ensure that this is seamless, and their launch day becomes one of celebration, excitement, and success!

Our delivery is bespoke and packed with practical and hands-on training, using your real-world scenarios to fully embed the product with your teams and experience first-hand the functionality it offers so they can then swiftly transfer their learning into their workplace.

Feeling part of a project is *empowering*.

It gives your teams a wish for it to succeed and our Puzzel training does just that.

Our training

- ✓ Is delivered by knowledgeable, friendly, experienced trainers
- ✓ Allows your staff to practice in a safe environment
- ✓ Delivers fast software training
- ✓ Shares best practice and encourages discussion
- ✓ Includes live demonstrations of your Puzzel solution
- ✓ Provides focused, immersive learning moments
- ✓ Is tailored to your unique Puzzel package
- ✓ Provides post course self-directed learning to grow skills further

How do you want yours *delivered*?

There's no one-size-fits-all approach to this, since every set of learners is different. Of course, the big question is: Face-to-face or online?

Face to face

One big factor with F2F will be geography. All on 1 site then classroom training might be for you.

Blended approach

All our training modes benefit from Puzzel Academy post course resources which gives an extra blended learning solution via videos and our help portal.

Digital learning

If you have several offices, training through MS teams will be the best option, and our top selection with our customers. This session is recorded, has huge group interaction and provides great instruction in a safe environment.

Site support on Go Live day

Floor Walking is a very popular selection for a go live day. Our Trainers will be on site and literally "Walk the Floor" responding to individual queries, issues and Puzzel related questions.

Benefits include:

- Encouragement, as employees receive dedicated 1-2-1 support
- Real time problem solving, as it's now truly bespoke and part of the client's process
- Confidence booster, as experts are on hand to support them to self-sufficiency.

Still Undecided?

At the Academy we strive to build relationships with our clients through exceptional training, making us their first choice for training their staff on our products due to our interaction, experience and knowledge.

If you wish to connect to some of our happy customers, please speak to our Training Director for more details.

Contact Centre

Training solutions to fit your package and meet your needs

Voice

Handle inbound calls with Softphone, IVR, Switchboard, Voice Recording, Silent Monitoring and more.

Email

Respond to emails fast with automatic routing, queuing and prioritisation.

Web Chat

Offer your customers live, convenient support as they browse your website.

Social

Impress influencers and build loyal followers on Facebook, Twitter and Trustpilot.

SMS

Deliver personalised service, surveys and campaigns straight to your customers' mobile phones.

Video

Video chat with customers and share screens for a more empathetic and intuitive customer experience.

Agent Application Training

Objectives

By the end of the session attendees will be able to:

- ✓ Sign in and demonstrate how to log in and log out of different profiles
- ✓ Demonstrate how to receive and make a call through the application
- ✓ Understand how to forward a call
- ✓ Practice how to receive and respond to written requests
- ✓ Identify different tabs and build a dashboard with relevant tabs
- ✓ Learn how to receive a webchat and interact with a customer
- ✓ Recognise the different tabs in Agent Assist

Agents will learn top tips from our experienced trainer on how to build their skills, get the most out of your platform, and reach your organisation's full potential.

Target audience

Contact centre agents and other Agent Application users

Overview

This course equips agents with the knowledge and skills they need to become confident users of Puzzel's Agent Application. Participants will explore the key features of the platform and learn how these can support them in their role, with demonstrations and activities throughout.

Delivery options

Face to face

Blended Approach

1.5 hours

1-15

* Training will vary and dependent on package purchased

Agent Case Management Training

Objectives

By the end of the session attendees will be able to:

- ✓ Demonstrate how to use and navigate the Puzzel Case Management (Ticketing) platform
- ✓ Manage a personal address book and understand how to store and edit contacts
- ✓ Forward tickets to other agents
- ✓ Add attachments and attributes to agents
- ✓ Demonstrate functionality of the platform

Agents will develop their ticketing skills through group activities and real-life scenarios led by our experienced trainer.

Target audience

Contact centre agents or staff handling tickets through the Puzzel Case Management platform

Overview

This course provides agents with the practical knowledge they need to successfully use Puzzel's Case Management platform. Participants will learn how to manage tickets, reply, forward, search, add notes attributes and attachments, utilise their address book and dashboard. This training includes a blend of comprehension, analytical study, and hands-on experience.

Delivery options

Agent Dialler Training

Objectives

By the end of the session attendees will be able to:

Agent

- ✓ Recognise the different functions of the Dialler area of the platform
- ✓ Discuss and recall the differences between a standard call and a dialler call
- ✓ Execute a call end to end including the "Enquiry registration"

Admin

- ✓ Apply the settings needed to set up a new campaign
- ✓ Differentiate between new and existing campaigns
- ✓ Execute a call end to end including the "Enquiry registration"

This session starts off with a tour from the Agents perspective exploring the modes and functionality of this great tool. Part two gives your learners key insights into building a campaign as they critique the approach step by step

Target audience

This training is split into 2 concurrent sessions. First part- Contact Centre agents and other users. Second part- Team leaders, supervisors, managers and administrators

Overview

This course provides you with the practical knowledge of this highly versatile automated outbound call system. The session walks through a variety of campaign modes including preview, progressive, power or predictive, demonstrates the uploading of campaign calls lists, analyses the call blending to combine inbound and outbound calls in a seamless manner. Demonstrations and activities take place throughout the session.

Please refer to target audience as this course is split into 2 concurrent sessions focusing on both agent and admin

Admin Portal Training

Objectives

By the end of the session attendees will be able to:

- ✓ Set up skills, queues and display queue settings
- ✓ Demonstrate how to set up users, user groups and profile templates
- ✓ Edit time and audio modules
- ✓ Configure and manage access control
- ✓ Navigate the core tabs within the platform
- ✓ Create and run basic reports
- ✓ Demonstrate the ability to use the features within the services tabs
- ✓ Create and modify dashboards to provide a holistic view of current performance

Our step-by-step programme will teach managers how to administer their PCC solution, understand the key features, and use our resource pack to test their knowledge as they go.

Target audience

Team leaders, supervisors, managers, administrators and engineers

Overview

This course provides contact centre leaders with the theoretical and practical knowledge they need to successfully manage and configure the Puzzel Admin Portal. Participants will explore the key features of the portal, including queues, wallboards and tickers and learn how these can support them in their role.
